

one door,
many possibilities

keeps freshness intact

Maintains the temperature at 10°C so that the nutritional value of food items is retained. Apt for items of daily use such as milk, vegetables, fruits, water, dairy, food, sweets...

Retains cooling for upto 3 hours, after power is unplugged. So your food stays fresh indoors, or when you're out on the road.

compact + portable

From fitting into your car's boot; to carrying it to your terrace party; it has capacity of 35 litres and weighs only 7 kilos.

Runs on intelligent solid state cooling: no compressors, and no moving parts; just easy maintenance, and freshness on the go.

officeKool

power unplugged

Consumes just 62W, thus lowering the running costs. It goes into sleep mode; cuts off electricity after achieving inside cooling temperature of 10°C. chotuKool also works on inverter.

Plug Power: 230V AC Supply
